this series uses child friendly stories and illustrations to show how conflict situations can be resolved each book contains two stories set in a primary school which can encourage children to relate to their everyday experiences this title looks at sharing

addressing the management of genetic resources this book offers a new assessment of the contemporary access and benefit sharing abs regime debates about abs have moved on the initial focus on the legal obligations established by international agreements like the united nations convention on biological diversity and the form of obligations for collecting physical biological materials have now shifted into a far more complex series of disputes and challenges about the ways abs should be implemented and enforced these now cover a wide range of issues including digital sequence information the repatriation of resources technology transfer traditional knowledge and cultural expressions open access to information and knowledge naming conventions farmers rights new schemes for

accessing pandemic viruses sharing dna sequences and so on drawing together perspectives from an interdisciplinary range of leading and emerging international scholars this book offers a new approach to the abs landscape as it breaks from the standard regulatory analyses in order to explore alternative solutions to the intractable issues for the access and benefit sharing of genetic resources addressing these modern legal debates from a perspective that will appeal to both abs scholars and those with broader legal concerns in the areas of intellectual property food governance indigenous issues and so on this book will be a useful resource for scholars and students as well as those in government and in international institutions working in relevant areas

this volume contains technical papers and panel position papers selected from the proceedings of the international symposium on information systems and technologies for network society held together with the ipsj information processing society of japan national convention in september 1997 papers were submitted from all over the world especially from japan korea and china since these countries are believed to form one of the major computer manufacturing centers in the world a panel on computer science education for the 21st century was set up a special session on the japanese project on software engineering invited representative researchers from the project which is supported by the ministry of education japan

this book constitutes the refereed proceedings of the 7th international conference on social robotics icsr 2015 held in paris france in october 2015 the 70 revised full papers presented were carefully reviewed and selected from 126 submissions the papers focus on the interaction between humans and robots and the integration of robots into our society and present innovative ideas and concepts new discoveries and improvements novel applications on the latest fundamental advances in the core technologies that form the backbone of social robotics distinguished developmental projects as well as seminal works in aesthetic design ethics and philosophy studies on social impact and influence pertaining to social robotics and its interaction and communication with human beings and its social impact on our society

bobby is a small bear with a big personality but there s one problem he never wants to share whether it s toys snacks or art supplies bobby keeps everything to himself leaving his friends feeling left out as his classmates try to include him bobby learns that keeping everything to himself isn t as fun as he thought through a series of gentle lessons bobby discovers the joy of sharing and how it can turn a lonely day into one full of laughter and new friendships
